

Make an Upcycled Garden Art Planters

You will need:

Cans

Black markers

Scissors or utility knife (you will need an adult to use this)

Paints (acrylic is best)

Paint brush

Tape

Glue

String/cord

Decorations

Soil and a succulent or plant (any type)

Instructions:

1. Make sure your can is clean and dry. Remove any labels from the cans, you may need to soak the can in warm water to do this.
2. Use tape to cover any sharp edges so that you do not cut yourself.
3. Use the black marker to draw any shapes or patterns that you would like on your planter.
4. Paint the planter and the shapes you made.
5. After the paint has dried you can add any decorations you like! See our pictures for inspiration.
6. Fill your planter with soil and a succulent or plant.
